Brian,

Thank you for all of your efforts with our corporate brochure. I am thankful that you were so willing to help Applus+ complete our project and offer your services with such an aggressive deadline. Your work ethic and communication was very professional and your attention to detail made the final project look polished. I look forward to working with you on our upcoming project for our kiosk brochure which will have a more realistic timeline and fair budget. I am confident you will complete it with the same passion and efforts as you did for our corporate brochure. It was a pleasure working with you and I look forward to relying on you as a regular vendor to the Applus+ marketing department. Enclosed are two copies of the corporate brochure along with a small "Thank You" gift on behalf of Applus+

Sincerely,

A handwritten signature in black ink that reads "Melinda Joseph".

Melinda Joseph
