

To whom it may concern:

Brian Dinter/ZeroHour Studios was a pleasure to work when it came to creating my website. He not only came up with a bunch of great idea's, but bent over backwards to modify everything exactly as I asked. The website turned out fantastic and I get comments left and right from anyone who visits it.

He is professional and gets things done when he says he will. I would recommend working with Brian to anyone that needs a website created.

Joe Ward
